

moneybot

moneybot, it see's your moneys

by #teamkernel

problem

easily access and analyze my transactions

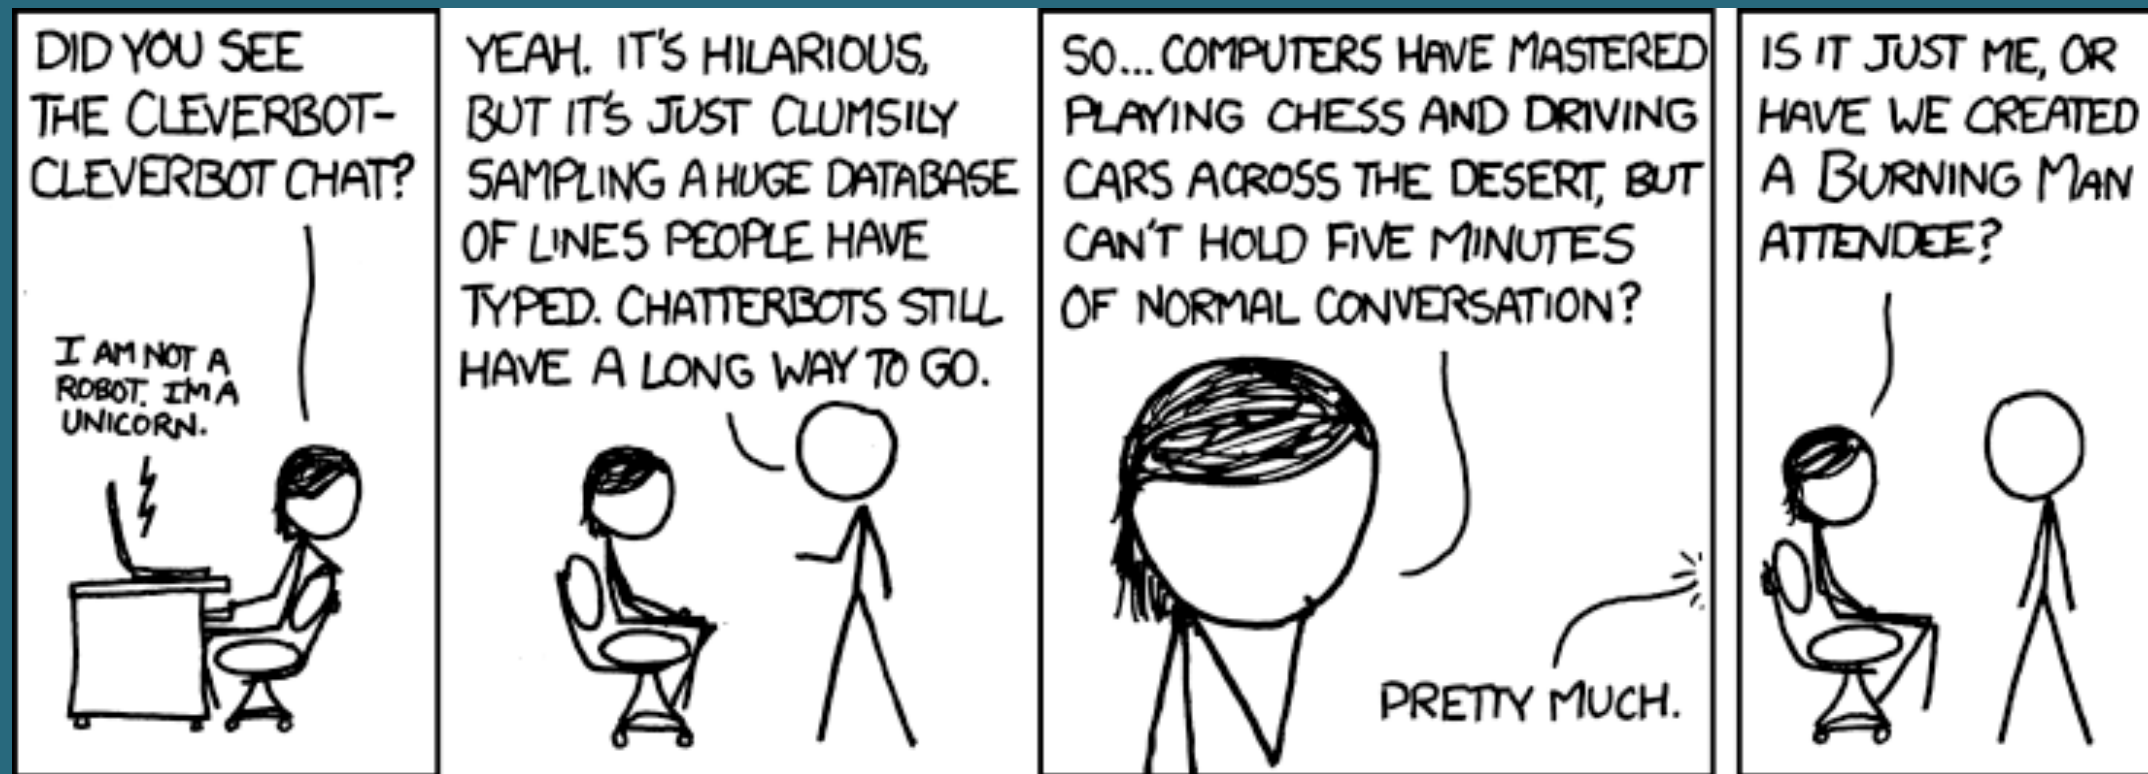

know my spending habits

my bank and apps like pocketbook to which i'm
subscribed to since 2012 don't do a good enough job.

short demo

moneybot, where art thou?

need ai

- we're using facebook's wit.ai engine to parse text
- it's pretty incomplete, needs many things

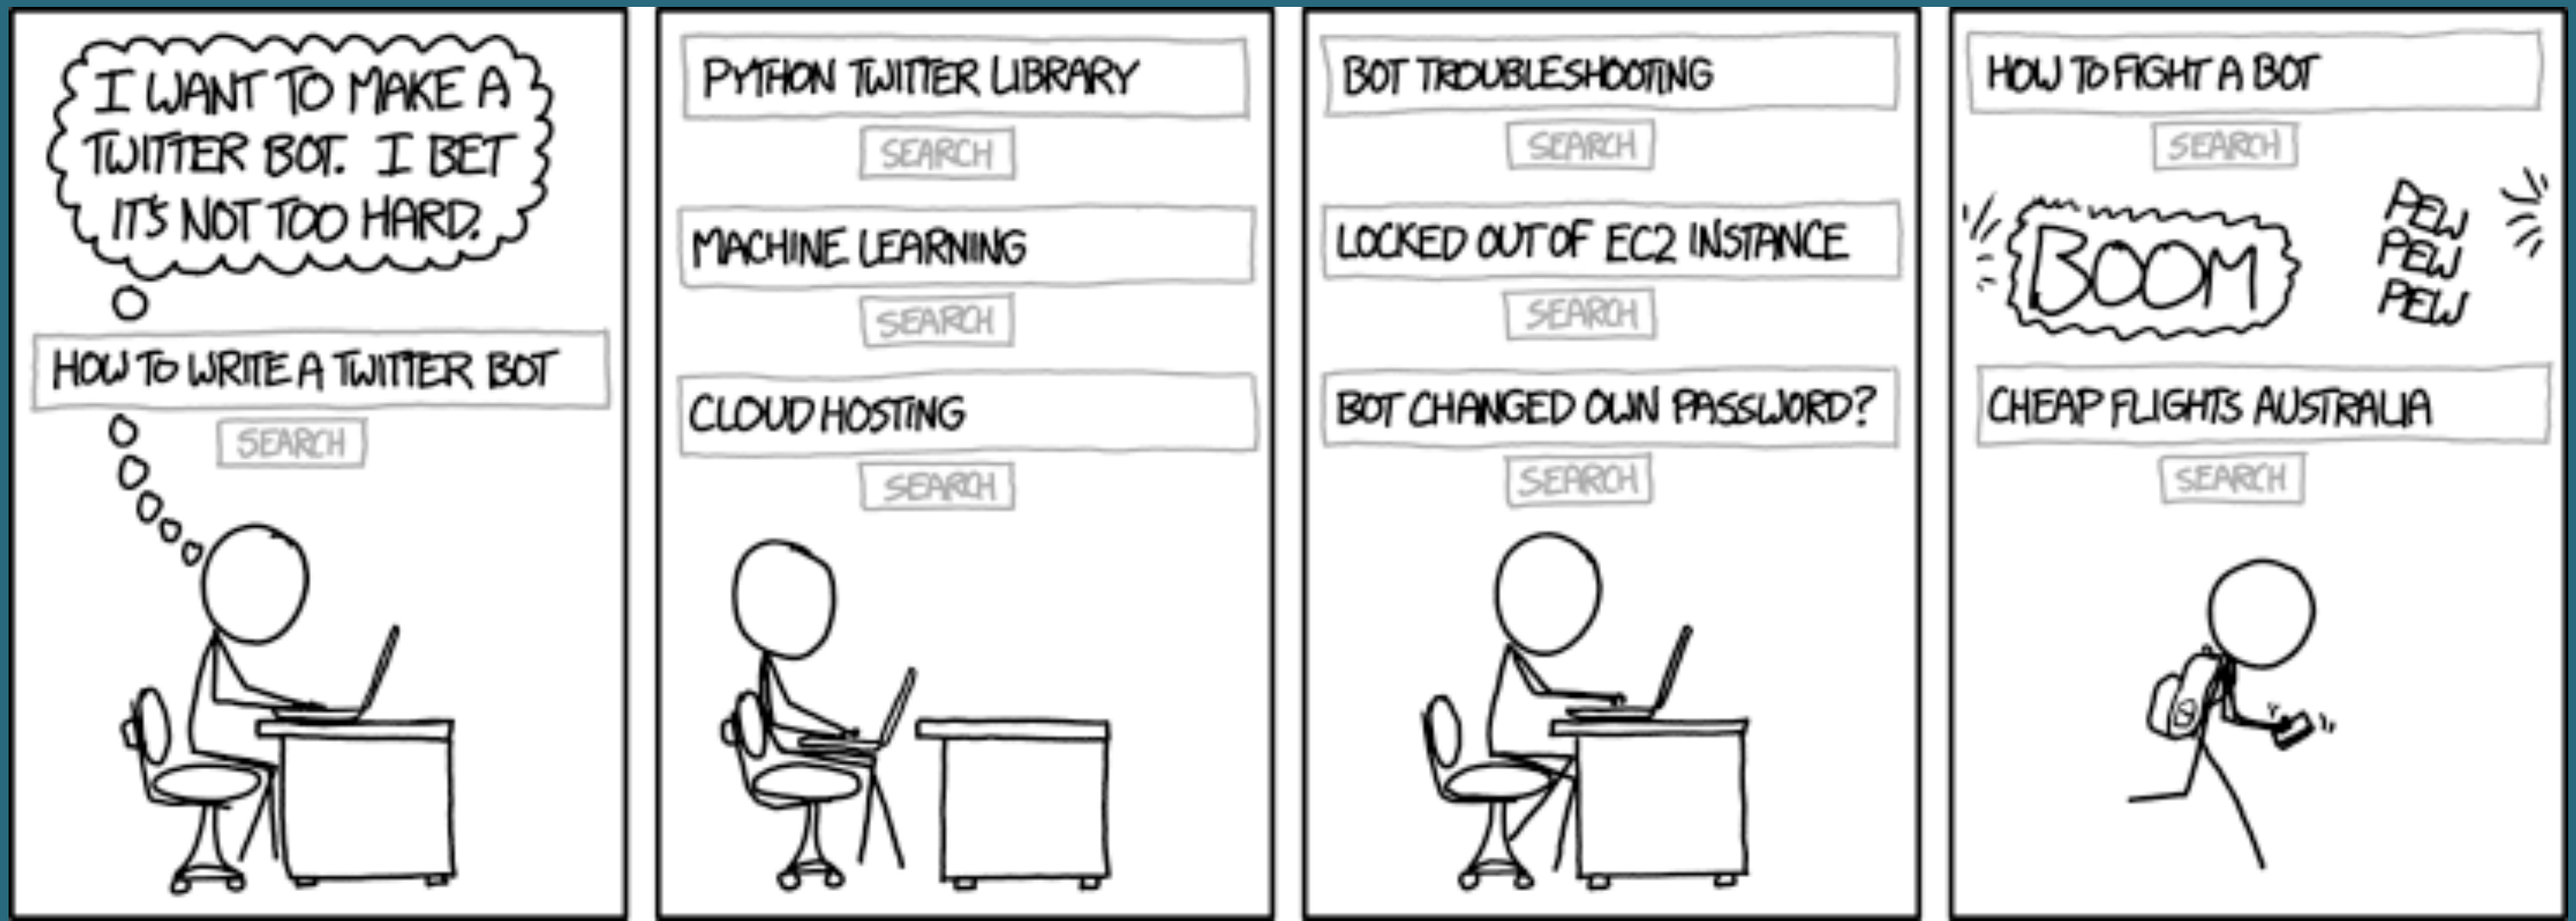

why does my bank suck at classifying my transactions?

features, features, features!¹

- used word2vec and sklearn classifiers
- turns out the big guys use yellow pages and humans

we need something here guys

¹ ok, maybe not so many

of course, a few years from now...
